EXPERIENCE

@Applications

created with React.js

- [Burger-App](#) - created with the course of Udemey and below I used what I have learned in my Own Project
- [Health-App](#) - managing state with Redux, using React-Router for navigation, sending http request with axios, and doing authentication using firebase API, saving user Information in Local-storage and reusing it in components.
- [Bank-App](#) - single page application, created using by only functional Components, with React Hooks.

@FreeCodeCamp Projects

created with React.js framework, expect Portfolio page

- [Portfolio](#)
- [Javascript Calculator](#)
- [Promodo Clock](#)
- [Quote Machine](#)
- [Morkdown Previewer](#)
- [Drum Machine](#)

@CodeHs Projects

- [Breakout](#) Arcade Game
- [Final Project](#) Arcade Game

@Udemy Projects

Responsive Websites

- [Hotel-Website](#)
- [Survey Form](#)
- [Ledger-Website](#)
- [Pig-Game](#) Created with Javascript

CERTIFICATIONS

FreeCodeCamp

- Responsive Web Design Developer Certification, representing approximately 300 hours of coursework
- JavaScript Algorithms and Data Structures
- Front End Libraries Certification

CodeHs

- Introduction to Computer Science in JavaScript (Golden)

TECHNICAL SKILLS

Languages: HTML/CSS, JavaScript,

Frameworks: React

Developer Tools: Git, Visual Studio, Figma

Libraries: jQuery, Redux

EDUCATION

BitCamp

currently in third stage

Books

[Just Javascript - Dan Abramov](#)

[you don't know js - Kyle Simpson](#)

Ilia State University

SCHOOL OF BUSINESS, TECHNOLOGY AND EDUCATION

School of Science, Technology, and Engineering

Tbilisi

2017 – 2021
